17 September

I was part of the first Akita Inaka School in summer of 2019 along with 24 plus amazing people of all nationalities and ages (17yrs\_58yrs) . The organisers had their work cut out for them and they delivered hands down. Going out of their way with anything, anytime.

This is a truly unique program that made of great combination of language learning and immersive cultural activities. The management team did all possible ways for us to get the most out of everyday. Most of all, living in Kosaka is a memory I would never forget!

 **John Garner**  
I have landed back in the UK and already missing Kosaka and all of you! It was an amazing month and you've all inspired me to pursue my dreams. I'm still so young but this entire experience has honestly changed me and I hope we will all meet again one day. Kampai to the future 🍷

**Many community events organised!**
